

## 1. Description

**Valiantech Advance+ DFA** is a chlorine free, non-metallic, multifunctional diesel additive package, developed to provide cost effective means to differentiate **Valiantech Sdn. Bhd.** with other competitors' products.

## 2. Key functions

At the recommended treat rates, **Valiantech Advance+ DFA** offer many benefits.

These include:

- Reduced nozzle fouling
- Protection against and restoration of power loss
- Improved fuel economy
- Improved driveability
- Improved corrosion protection
- Excellent antifoam performance
- Protection against fuel/water emulsions
- Complete compatibility with the constituent materials of the engine and fuel system

## 3. Typical properties

Typical physical and chemical properties data for **Valiantech Advance+ DFA** are given below:

Property	Valiantech Advance+ DFA	Method
Density @ 15°C, kg/L	0.92	EL-13 <sup>1</sup> / ASTM D4052
Kinematic viscosity @ 40°C, cSt	16	EL-23 <sup>2</sup> / ASTM D445
Flash point, °C	61	ASTM D93 <sup>3</sup>
Pour point, °C	<-30	ASTM D97

## 4. Application

Pour entire **Valiantech Advance+ DFA** bottle into nearly empty tank and re-fuel with up to 60 litres of diesel. This product can only be used with diesel.
